3. Invite Your Friends (or Family)

Invite others via link, text, or email directly through the app if you are “friends” with them on the app.

The left button gives you a link to send to others.

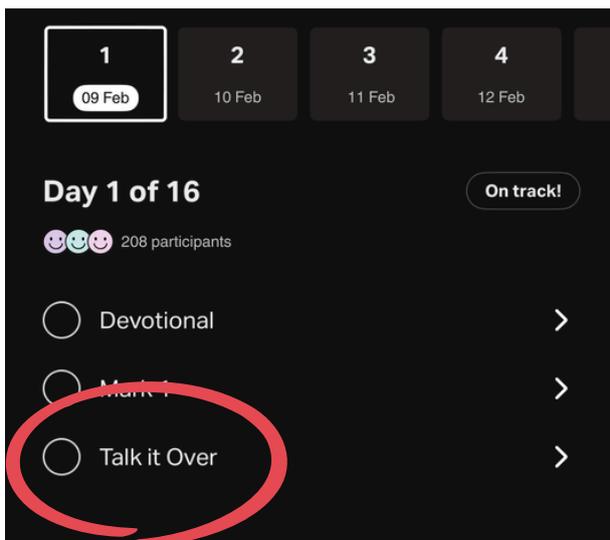

The right button gives you a QR code for your family and friends to scan.

4. Read Daily

Each day, read the devotional individually at a time that works for you.

5. Share & Discuss

Use the “Talk it Over” button to share reflections, questions, or prayers. You can also discuss it in person or over chat when you meet.

6. Keep It Simple

There’s no pressure to be perfect —consistency, honesty, and showing up together matter most.
